Answer:
Explanation:

Explanation

Box 1: A DAX Calculated measure
Box 2: Date.EndofQuarter(#date([Year],[Mont],1))
ENDOFQUARTER returns the last date of the quarter in the current context for the specified column of dates.
The following sample formula creates a measure that returns the end of the quarter, for the current context.
= ENDOFQUARTER(DateTime[DateKey])

Topic 2, Litware, Inc. Case Study
This is a case study. Case studies are not timed separately. You can use as much exam time as you would like to complete each case. However, there may be additional case studies and sections on this exam. You must manage your time to ensure that you are able to complete all questions included on this exam in the time provided.
To answer the questions included in a case study, you will need to reference information that is provided in the case study. Case studies might contain exhibits and other resources that provide more information about the scenario that is described in the case study. Each question is independent of the other questions in this case study.
At the end of this case study, a review screen will appear. This screen allows you to review your answers and to make changes before you move to the next section of the exam. After you begin a new section, you cannot return to this section.
To start the case study
To display the first question in this case study, click the Next button. Use the buttons in the left pane to explore the content of the case study before you answer the questions. Clicking these buttons displays information such as business requirements, existing environment and problem statements. If the case study has an All Information tab, note that the information displayed is identical to the information displayed on the subsequent tabs. When you are ready to answer a question, click the Question button to return to the question.
Overview
Litware, Inc. is an online retailer that uses Microsoft Power Bl dashboards and reports.
The company plans to leverage data from Microsoft SQL Server databases, Microsoft Excel files, text files, and several other

data sources.
Litware uses Azure Active Directory (Azure AD) to authenticate
users.
- Existing Environment
Sales Data
Litware has online sales data that has the SQL schema shown in
the following table.

In the Date table, the dateid column has a format of yyyymmdd
and the month column has a format of yyyymm. The week column in
the Date table and the weekid column in the Weekly_Returns
table have a format of yyyyww. The regionid column can be
managed by only one sales manager.
Data Concerns
You are concerned with the quality and completeness of the
sales data. You plan to verify the sales data for negative
sales amounts.
Reporting Requirements
Litware identifies the following technical requirements:
* Executives require a visual that shows sales by region.
* Regional managers require a visual to analyze weekly sales
and returns.
* Sales managers must be able to see the sales data of their
respective region only.
* The sales managers require a visual to analyze sales
performance versus sales targets.
* The sale department requires reports that contain the number
of sales transactions.
* Users must be able to see the month in reports as shown in
the following example: Feb 2020.
* The customer service department requires a visual that can be
filtered by both sales month and ship month independently.
