NEW QUESTION: 1

Which of the following activities is be performed by access management?

- A. Providing physical security for staff data centers and other buildings
- B. Managing the rights to use a service or group of services
- C. Managing access to computer rooms and other secure locations
- D. Managing access to the service desk

Answer: B

NEW QUESTION: 2

You are configuring budgets for your organization. Your organization uses a scientifically calculated, predefined percentage of direct expenses for each of its departments. You need to define these percentages so that the budget automatically allocates to these departments from the main accounts.

What should you configure?

- A. Budget control rules
- B. Budget transfer rules
- C. Budget period allocation keys
- D. Budget allocation terms

Answer: D

Explanation:

Use the Budget allocation terms form to define the financial dimension values and the percentages that are used to generate budget allocations. These budget allocation terms provide an automated way to distribute percentages of budget amounts across financial dimension values. For example, a travel budget can be allocated to multiple departments by using one budget account entry.

Reference: Set up budget allocation terms [AX 2012]

NEW QUESTION: 3

Which three things will occur when a caller encounters this script? (Choose three.)

- A. cisco123
