Just one or two days' preparation help you pass exams easily.

NEW QUESTION: 1

- A. Option D
- B. Option E
- C. Option B
- D. Option C
- E. Option A

Answer: D

Explanation:

A is not correct because increasing the memory size will not improve persistent disk throughput.

B is not correct because the DB administration team is requesting help with their MySQL instance Migration to a different product should not be the solution when other optimization techniques can still be applied first.

C is correct because persistent disk performance is based on the total persistent disk capacity attached to an instance and the number of vCPUs that the Instance has Incrementing the persistent disk capacity will increment ns throughput and IOPS, which In turn improve the performance of MySQL.

D is not correct because the DB administration team is requesting help with their MySQL instance Migration to a different product should not be the solution when other optimization techniques can still be applied first.

NEW QUESTION: 2

You are a Dynamics 365 for Customer Service administrator for a help desk.

Help desk representatives need to send emails to all contacts that are associated with cases. The emails must provide the status for the case, use similar formatting, and include the following information:

- * contact name
- * case number
- * case title
- * case status
- * representative name

You need to create an email template for the system.

Which four actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Answer:

Explanation:

- 1 - Create an email template for the case.
- 2 - Add data values from the Case entity.
- 3 - Add data values under the Contact entity related to the account.
- 4 - Save the template.

NEW QUESTION: 3

- A. Option B
- B. Option D
- C. Option E
- D. Option F
- E. Option C
- F. Option A

Answer: A,E

Explanation:

B: Job priorities are used only to prioritize among jobs in the same class.

Note: Group jobs for prioritization

Within the same job class, you can assign priority values of 1-5 to individual jobs

so that if two jobs in the class are scheduled to start at the same time, the one with

the higher priority takes precedence. This ensures that you do

not have a less important job preventing the timely completion of a more important one.

C: Set resource allocation for member jobs Job classes provide the link between the Database Resource Manager and the Scheduler, because each job class can specify a resource consumer group as an attribute. Member jobs then belong to the specified consumer group and are assigned resources according to settings in the current resource plan.

NEW QUESTION: 4

When creating a QoS policy dialog box in Cisco UCSM, which four fields can be modified? (Choose four.)

- A. host control
- B. best-effort
- C. name
- D. burst
- E. rate

Answer: A,C,D,E
