Answer: D

NEW QUESTION: 2

Azure, Microsoft Azure, is a cloud computing service provided by Microsoft. It is a platform as a service (PaaS) that allows developers to build and run applications without the need to manage the underlying infrastructure. Azure is a multi-cloud service that can be used to build and run applications on a variety of hardware and software configurations. Azure is a cloud computing service that provides a wide range of services, including virtual machines, storage, and networking. Azure is a cloud computing service that provides a wide range of services, including virtual machines, storage, and networking. Azure is a cloud computing service that provides a wide range of services, including virtual machines, storage, and networking.

Answer:

Explanation:

Explanation

Section: Understand Core Azure Services

NEW QUESTION: 3

Company Background Corporate Information
 Araba, Ltd. is a small company which only contains 15 employees and a single office.

Existing Environment Existing Licensing Solution
 Araba only purchases OEM licenses.

Existing IT Environment
 There are 15 desktop computers in Araba, each company employee uses one. But only four desktops have access to the Internet. The company has installed Windows XP Professional and various versions and editions of Microsoft Office on these computers. Only when complete hardware failure occurs, the company purchases new desktops. Since Araba is a quite small company, it does not contain the IT department, a hardware supplier provide technical support services for the company.

Business Requirements Planned Changes
 The manager intends to sell the company in two years, keep overall costs to a minimum, and does not hope any increase of the overall costs during this period. According to the requirement of three employees, the company plans to allow them to work from home periodically. The three employees will be provided with dedicated portable computers by the company.

Business Goals
 Araba aims to achieve the following business goal:
 Buy all licenses in a single payment.
 Deploy an internal server to provide e-mail services.
 Permit all desktops to access the Internet.
 Enable three employees to use their laptops from home

periodically.

Make sure that all employees have the most current version of Office.

Make sure that all employees have the same edition of Office.

Implement a database to store customer data securely.

Only employees should be able to access this information.

Question

Since the company plans to buy Office licenses, of the following Volume Licensing programs, which one should you recommend?

A. Open License

B. Enterprise Agreement

C. Open Value Company-wide

D. Open Value Non-Company-wide

Answer: A
