- A. Network switch ports cannot be members of any VLAN
- B. Data Mover IP addresses must be identical
- C. VLAN tagging must be configured
- D. Data Movers' network switch ports must be configured the same

Answer: D

NEW QUESTION: 2

A network technician is trying to determine the source of an ongoing network based attack. Which of the following should the technician use to view IPv4 packet data on a particular internal network segment?

- A. Proxy
- B. Protocol analyzer
- C. Firewall
- D. Switch

Answer: B

NEW QUESTION: 3

Your computer runs Windows 8 and is connected to an Active Directory Domain Services (AD DS) domain.

You create a folder and share the folder with everyone in your organization.

You need to modify the NTFS permissions of the folder to meet the following criteria:

- Users from the Marketing security group must be able to open files, but not modify them.
- Users from the Supervisors security group must be able to create, modify, and delete files.
- Users from both groups must not be able to delete the folder.

Which permissions should you set?

- A. Assign the Marketing group the Read permission. Assign the Supervisors group the Read and Write permissions and the Delete special permission.
- B. Assign the Marketing group the Read and Write permissions. Assign the Supervisors group the Full Control permission.
- C. Assign the Marketing group the Read permission. Assign the Supervisors group the Read and Write permissions and the Delete Subfolders and Files special permission.
- D. Assign the Marketing group the Read and Write permissions. Assign the Supervisors group the Modify permission and the Delete Subfolders and Files special permission.

Answer: C

NEW QUESTION: 4

Please wait while the virtual machine loads. Once loaded, you may proceed to the lab section. This may take a few minutes, and the wait time will not be deducted from your overall test time.

When the Next button is available, click it to access the lab section. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to you as it would be in a live environment, some functionality (e.g., copy and paste, ability to navigate to external websites) will not be possible by design.

Scoring is based on the outcome of performing the tasks stated

in the lab. In other words, it doesn't matter how you accomplish the task, if you successfully perform it, you will earn credit for that task.

Labs are not timed separately, and this exam may have more than one lab that you must complete. You can use as much time as you would like to complete each lab. But, you should manage your time appropriately to ensure that you are able to complete the lab(s) and all other sections of the exam in the time provided. Please note that once you submit your work by clicking the Next button within a lab, you will NOT be able to return to the lab. You may now click next to proceed to the lab.

Lab information

Use the following login credentials as needed:

To enter your username, place your cursor in the Sign in box and click on the username below.

To enter your password, place your cursor in the Enter password box and click on the password below.

Microsoft 365 Username:

[\[email#160;protected\]](#)

Microsoft 365 Password: *yfLo7Ir2&y-

If the Microsoft 365 portal does not load successfully in the browser, press CTRL-K to reload the portal in a new browser tab.

The following information is for technical support purposes only:

Lab Instance: 10811525

You plan to invite several guest users to access the resources in your organization.

You need to ensure that only guests who have an email address that uses the @contoso.com suffix can connect to the resources in your Microsoft 365 tenant.

Answer:

Explanation:

See explanation below.

Explanation

You need to add contoso.com as an allowed domain in the 'External collaboration settings'.

1. Go to the Azure Active Directory admin center.
2. Select Users then select 'User settings'.
3. Under External Users, select the 'Manage external collaboration settings'.
4. Under 'Collaboration restrictions', select the 'Allow invitations only to the specified domains (most restrictive)' option.
5. Under, Target Domains, type in the domain name 'contoso.com'
6. Click the Save button at the top of the screen to save your changes.
