D. Connect an export Datasource from the existing compositeProvider to the new compositeprovider.

Answer: B

NEW QUESTION: 2

During an implementation where Procurement Contract and Supplier Portal are being implemented, the Procurement Contract user (buyer) has created deliverables on a supplier, which also has an identified Supplier Portal user. The supplier has requested the buyer to email details of the deliverable. Advise the buyer on how he or she can communicate the deliverable details to the supplier through the application.

- A. The supplier can view the deliverable from the Supplier Portal by clicking the Manage Deliverables link.
- B. The supplier can view the deliverable by navigating to the Agreements tab from the Supplier Portal.
- C. The supplier can view the deliverable by opening the contract in the Contracts tab in the Supplier Portal.
- D. The supplier can view the deliverable from the supplier portal under the Deliverables tab.

Answer: D

Explanation:

How can I change the due dates, notifications, and other contract deliverable details?

You can change the due dates, notifications, and other contract deliverable definition details in the Deliverables tab of a contract that is in Draft or Under Amendment status.

Once the contract becomes active and deliverables are automatically activated creating deliverable instances, you can only make changes to deliverables status, notes and attachments using the Manage Deliverables task. For internal deliverables with a fixed due date that you can manually activate at any time irrespective of contract status, you can only make changes to deliverable definition details before you activate them.
