Answer: A

Explanation:

Explanation/Reference:

Explanation:

7.2.3.1 Activity Cost Estimates

Activity cost estimates are quantitative assessments of the probable costs required to complete project work. Cost estimates can be presented in summary form or in detail. Costs

are estimated for all resources that are applied to the activity cost estimate. This includes, but is not limited to, direct labor, materials, equipment, services, facilities, information technology, and special categories such as cost of financing (including interest charges), an inflation allowance, exchange rates, or a cost contingency reserve. Indirect costs, if they are included in the project estimate, can be included at the activity level or at higher levels.

Process: 7.3 Determine Budget

Definition: The process of aggregating the estimated costs of individual activities or work packages to establish an authorized cost baseline.

Key Benefit: The key benefit of this process is that it determines the cost baseline against which project performance can be monitored and controlled.
