Sometime low-price site sell old version but we sell new updated version.

NEW QUESTION: 1

NOTE: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have an Azure Stack integrated system that runs in a connected environment.

You need to recommend an interval for installing Microsoft software update packages to Azure Stack. The solution must ensure that you can receive Microsoft support.

Solution: You recommend that Microsoft software updates be installed every 12 months.

Does this meet the goal?

A. No

B. Yes

Answer: A

Explanation:

Explanation/Reference:

Explanation:

For your Azure Stack deployment to remain in support, it must run the most recently released update version or run either of the two preceding update versions.

Microsoft will release update packages for Azure Stack integrated systems on a regular cadence that will typically fall on the fourth Tuesday of every month.

Thus to remain in support you must be running one of the last three update versions and, as an update version is released every month, you need to install updates at least every three months.

NEW QUESTION: 2

You have a Microsoft Exchange Server 2019 organization that contains a Mailbox server named EX01. EX01 contains a mailbox database named MailDB01.

You attach a new hard drive named F to EX01. On drive F, you create a folder named Databases.

You plan to run the following command on EX01.

```
Move-DatabasePath -Identity MailDB01 -EdbFilePath
```

```
F:\Databases\MailDB1.edb -ConfigurationOnly $false
```

What is the effect of running the command? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

Answer:

Explanation:

Explanation
