NEW QUESTION: 1

- A. Option B
- B. Option C
- C. Option A

Answer: C

NEW QUESTION: 2

You need to recover a tenant database backup from SAP HANA system 1 into SAP HANA system 2. Which activities do you perform to restore the tenant? Note: There are 2 correct answers.

- A. Create the tenant in the target database
- B. Start the recovered tenant database
- C. Recover the tenant with the Initialize Log Area option
- D. Copy the transaction logs to the target database

Answer: C,D

NEW QUESTION: 3

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has a Microsoft Office 365 tenant.

You suspect that several Office 365 features were recently updated.

You need to view a list of the features that were recently updated in the tenant.

Solution: You use Monitoring and reports from the Compliance admin center.

Does this meet the goal?

- A. Yes
- B. No

Answer: B

Explanation:

Depending on what your organization's Office 365 subscription includes, the Dashboard in Security & Compliance includes several widgets, such as Threat Management Summary, Threat Protection Status, Global Weekly Threat Detections, Malware, etc. The Compliance admin center in Microsoft 365 contains much of the same information but also includes additional entries focusing on alerts, data insights.

The Monitoring and reports section from the Compliance admin center does not display a list of the features that were recently updated in the tenant so this solution does not meet the goal.

To meet the goal, you need to use Message center in the Microsoft 365 admin center.

Reference:

<https://docs.microsoft.com/en-us/office365/admin/manage/message-center?view=o365-worldwide>

NEW QUESTION: 4

When troubleshooting duplex mismatches, which two are errors that are seen on the half duplex end? (Choose two.)

- A. FCS errors
- B. runts
- C. excessive collisions
- D. late collisions

Answer: C,D
