NEW QUESTION: 1

HOTSPOT

Your company uses Office 365 Small Business.

You need to configure the Microsoft Exchange ActiveSync

password policy and control the display of presence information.

Which two service categories should you configure on the service settings page of the Office 365 admin portal? To answer, select the appropriate service categories in the answer area.

Answer :

Explanation:

Explanation:

Microsoft Exchange ActiveSync is used to enable mobile phone users to access their email, calendar, contacts, and tasks in an Exchange 2013 or Exchange Online environment. Microsoft Exchange ActiveSync password policy is configured in the Mobile Access section in the Office 365 Service Settings page.

Presence information in Lync Server enables users to approach colleagues at the right time with the right form of communication, to lead to a more productive work environment. A user's presence is a collection of information that includes availability, willingness to communicate, additional notes (such as location and status), and how the user can be contacted. Presence is enhanced in Lync Server with pictures, location information, and a rich set of presence states that includes "Off Work," "Do Not Disturb," and "Be Right Back," in addition to basic states such as "Available," "Busy," and "In a Conference." To configure the display of presence information, we need to select the "IM, Meetings and Conferencing" option.
