**Answer: B**

Explanation:  
Explanation/Reference:  
Explanation:

### **NEW QUESTION: 2**

HOTSPOT

Identify the FireWire 400 port in the image given below.

**Answer:**

Explanation:

### **NEW QUESTION: 3**

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You plan to create a release pipeline that will deploy Azure resources by using Azure Resource Manager templates. The release pipeline will create the following resources:

- \* Two resource groups
- \* Four Azure virtual machines in one resource group
- \* Two Azure SQL databases in other resource group

You need to recommend a solution to deploy the resources.

Solution: Create a main template that will deploy the resources in one resource group and a nested template that will deploy the resources in the other resource group.

Does this meet the goal?

**A.** Yes

**B.** No

**Answer: B**

Explanation:

Use two linked templates, instead of the nested template.
