#### **NEW QUESTION: 1**

You work as a Software Developer for ABC Inc. The company uses Visual Studio.NET 2008 as its application development platform. You create an ASP.NET Web application using the .NET Framework 3.5. The application uses Session objects. You are changing the application to run on a Web farm. You want to make sure that the application can access the Session objects from all the servers in the Web farm. You also make sure that when any server in the Web farm restarts or stops responding, the Session objects are not lost. What will you do?

- A.** Use SQLServer Session Management mode to store session data in a common Microsoft SQL Server 2005 database
- B.** Use StateServer Session Management mode to store session data in a common State Server process on a Web server in the Web farm
- C.** Use InProc Session Management mode to store session data in the ASP.NET worker process
- D.** Use SQLServer Session Management mode to store session data in an individual database for each Web server in the Web farm

#### **NEW QUESTION: 2**

[According to the PRMIA study guide for Exam 1, Simple Exotics and Convertible Bonds have been excluded from the syllabus. You may choose to ignore this question. It appears here solely because the Handbook continues to have these chapters.] Which

of the following describes a 'quanto' instrument:

- A. any two asset instrument in which one asset is a foreign currency
- B. correlation products
- C. options on options
- D. any two asset hybrid instrument

**Answer: A**

Explanation:

Explanation

A quanto is any instrument in which one asset is a foreign currency. Examples include any option on a foreign currency asset with the strike price in foreign currency, and an option on a foreign currency asset with the foreign currency risk hedged.

Correlation products refer to credit products on a basket of credits. Options on options represent an option to buy or sell an option in the future, and they are not 'quintos'. Similarly, not every two asset instrument is a quanto unless one of the two assets is a foreign currency.

### **NEW QUESTION: 3**
