NEW QUESTION: 1

You are leading a team to review and improve the project selection and prioritization method. You know that the two most important questions to answer are "can we do the project?" (feasibility study) and "should we do the project?" (cost-benefit analysis). The team is considering many different management concerns, including financial return, market share, and public perception.

The most important criterion for building a project selection model is _____

- A. Realism
- B. Risks

- C. Benefits realization
- D. Ease of use

Answer: A

Explanation:

Explanation/Reference:

Explanation:

A project selection model should reflect the objectives of the company and its managers; consider the realities of the organization's limitations on facilities, capital, and personnel; and include factors for risk--the technical risks of performance, cost, and time as well as the market risk of customer rejection.
