The future is really beautiful, [MS-720](#) but now, taking a crucial step is even more important!

NEW QUESTION: 1

You work as the network administrator at ABC.com. Your responsibilities include maintaining the Project Server 2010 environment. The ABC.com senior management has a meeting every month to review current projects, upcoming approved projects and rejected projects. After each monthly meeting, the rejected projects are deleted. In the January meeting, a proposed project named ProjectB is rejected and subsequently deleted. Six months later, the senior management decides to review the proposal for ProjectB. However, as the original proposal has been deleted, a new proposal needs to be made. To prevent this happening again in the future, you want to save an electronic copy of any rejected projects before they are deleted. Which of the following actions should you take?

- A. You should run a rejected projects report in Project Web App (PWA) and export the projects.
- B. You should configure a daily backup schedule in Project Web App (PWA).
- C. You should save the rejected projects to a category in Project Web App (PWA).
- D. You should configure a daily backup of the content database

in SharePoint 2010.

Answer: B
