I). The accounts receivable period is always greater than or equal to the length of the cash cycle.

II). Reducing the inventory turnover will increase the cash cycle and lower the cash balance.

A. I and II.

B. I only.

C. II only.

**Answer: C**

Explanation:

The accounts receivable period can be shorter than the cash cycle.

**NEW QUESTION: 2**

```
contoso.com; Microsoft Azure Active Directory; Azure AD; App1; App2; App3; Windows Information Protection; WIP; Protected apps: App1; Exempt apps: App2; File1; Windows Information Protection mode: Silent; Unallowed actions, like apps inappropriately trying to access a network resource or WIP-protected data, are still stopped.
```

**Answer:**

Explanation:

Explanation

Exempt apps: These apps are exempt from this policy and can access corporate data without restrictions.  
Windows Information Protection mode: Silent: WIP runs silently, logging inappropriate data sharing, without stopping anything that would've been prompted for employee interaction while in Allow overrides mode.

Unallowed actions, like apps inappropriately trying to access a network resource or WIP-protected data, are still stopped.
