Answer:
Explanation:

Explanation:
Box 1: An Azure AD app registration
Azure active directory (AD) provides cloud based directory and
identity management services.You can use azure AD to manage
users of your application and authenticate access to your
applications using azure active directory.
You register your application with Azure active directory
tenant.
Box 2: A conditional access policy
Conditional Access policies at their simplest are if-then
statements, if a user wants to access a resource, then they
must complete an action.
By using Conditional Access policies, you can apply the right
access controls when needed to keep your organization secure
and stay out of your user's way when not needed.
