 Product Description

Quality notes from the Daily Log
 The Director of Information Technology Division (DIT) has been asked to ensure that any changes to the outsourced staff employment contracts adhere to employment law. The DIT will review future job descriptions of the transferred staff before the final contract is signed with the selected service

provider.

The service level agreement between MFH and the selected service provider will specify the type and quality of service required. The selected service provider must follow the industry standards for providing outsourced services.

MFH has a quality management system which contains a document control procedure for all its documentation, however this does not include change management.

All project documents will be subject to a quality review.

Nominated products will require a formal approval record signed-off by the quality review chair.

Extract from the draft Quality Management Strategy (may contain errors) Introduction

1. This document defines the approach to be taken to achieve the required quality levels during the project.

2. The Project Board will have overall responsibility for the Quality Management Strategy.

3. Project Assurance will provide assurance on the implementation of the Quality Management Strategy.

Quality management procedure - Quality standards

4. The selected service provider will operate to industry standards for providing outsourced services.

5. MFH document standards will be used.

Records

6. A Quality Register will be maintained to record the planned quality events and the actual results from the quality activities.

7. Configuration Item Records will be maintained for each product to describe its status, version and variant.

8. Approval records for products that require them will be stored in the quality database.

Roles and responsibilities

9. The DIT will check that the employment contracts for outsourced staff adhere to employment law.

10. Team Managers will provide details of quality checks that have been carried out.

11. Team Managers will ensure that the Quality Register is updated with the names of team members who are involved in the review process.

12. The Senior User will review the Product Descriptions of the products to be produced by the selected service provider to ensure that they can be achieved.

Which is a correctly defined acceptance criterion for the running cost of the outsourced service?

A. The annual increase to be less than half the rate of inflation.

B. Must be kept to a minimum.

C. Subject to market conditions.

D. Must be kept to a level acceptable to the Ministry of Food Hygiene.

Answer: A

NEW QUESTION: 3

An Amazon EC2 instance is connected to an Amazon Elastic Load Balancer, which is connected to an Amazon RDS instance. The EC2 instance is in a private subnet and the RDS instance is in a public subnet. The EC2 instance is unable to connect to the RDS instance.

What is the most likely cause of this issue?

- A. The EC2 instance is not in the same VPC as the RDS instance.
- B. The EC2 instance is not in the same Availability Zone as the RDS instance.
- C. The RDS instance is not in the same VPC as the EC2 instance.
- D. The IP address of the RDS instance is not in the EC2 instance's security group.
- E. The EC2 instance is not in the same VPC as the Elastic Load Balancer.

Answer: C,D
